GREAT IMPROVEMENT. TAVING been engaged in Mill building for the most of 11 the time for the last twelve years, I have invented a WATER WHEEL which is durable, and at the same time simple in its con-

struction, and capable of doing more work, with less water, than any other Wheel now in use. It is suited to Grist, Saw Mills, Cotton Gins, and any other machinery that may be attached. This Wheel commands the admiration of every one who has witnessed its performance, and is suited to any location, high or low head of water, and will grind from six to twenty bushels of corn per hour, without any gearing or belts to get out of order, and loss of time in repairing; and yet so cheap as to place it within the reach of every one who can have a Mill of any kind. I am now prepared to furnish Wheels and put them in op-

eration, and fill orders in my line of business. I put up Grist Mills to clean the grain of all dirt, trash and chaft, and grind nothing but the grain-Saw Mills, straight and circular saws on the most improved plans-Cotton Gins, with an improved gearing that is simple, durable, and works with more ease than any now in use; and all other machinery that may be wanted. All work put up durable and in a neat style, and guaran-

teed to give satisfaction. I might give a long list of certificates, but my work will recommend itself. Any one wanting anything in my line of business will do well to address the subscriber at Magnolia, N. C. REFERS TO-P. Murphy, W. K. Cromartie, L. G. Bass, and J. A. PARKER. James Murphy, Esqrs.

March 14th, 1861. NEW WATER WHEEL.-GREAT INVENTION. THE SUBSCRIBER takes this method of informing the public, that, after many years of experience, he has succeeded in inventing a WATER WHEEL which he can confidently recommend as being simpler in construction, more powerful in performance with a given amount or head of water, and more durable and less liable to get out of order than any Wheel now in use or heretofore coffered to

the public. This Wheel was patented on the 29th January, 1861. It being a packed Wheel, no water can escape between the top of the Wheel and the bottom of the case, and conse-

It is of cast iron and is water, grind from 12 to 40 bushels of Corn per hour, and is East to New River, and including that River and Inlet. suited to any head of water from 2 feet upwards. It has only six buckets and turns out 84 square inches of water, being all that it requires for the performance of any amount

As above stated, this Wheel is patented, and I take pleasure in offering it to any person wanting a cheap, powerful and durable Water Wheel, adapted to grist mills, upright or circular saw mills, cotton gins, factories, or any other kind of machinery in driving which water-power is used, furnishing sizes of Wheels from two feet upwards, adapted to any head of water. I will furnish and put in running ordar a Wheel attached to any person's mill for \$75, or I will seil the right to use one for \$25. I will also sell County and

THE SUBSCRIBER having determined to go South, offers for sale his entire possession of LANDS. Hanover county, 30 miles from Wilmington, and one mile from the Cape Fear River, in Caintuck District, there being about 360 acres in all, of which 35 acres are drained and cleared, and in a fine state of cultivation-there being about 200 acres more to clear, all heavy growth Swamp Land, being a portion of the well-known JUNIPER AND BEAR SWAMPS, and the balance UPLAND. The Swamp is well adapted to the production of Corn, Peas, Potatoes and Rice. On the Plantation is a very good DWELLING HOUSE nearly new, and all necessary out-houses, and a good Well of Water. The place is pleasantly located, and as healthy as any in the State. Also, another tract immediately on the Cape Fear River, containing 152 acres, about 2 miles from the above plantation, all fenced for the purpose of a Pasture. There is about 40 acres cleared and well adapted to Corn, Peas, Pumkins, &c. A so, there is any quantity of OAK AND ASH WOOD handy to the river, which can, with little labor, be turned into money. Any person wishing to settle himself on as valuable and pleasently located a place as any in this country-in a good neighborLood-would do well to call soon, as I am sure the place is too well known to remain on hand long.
